

Below Itinerary is for reference only and is subject to any necessary changes in accordance to local requirements.

3 Days Mulu National Park

(Soft Adventure)

Departure: Daily, Minimum 2 pax on SIC basis

Baggage to Mulu

Weight allowance for the flight to and from Mulu is 10kg only. If your flight going into or out of Mulu is via Miri, even only on transit, you are only allowed to bring a smaller bag. We will store your large baggage in our Miri office and return them to you when you fly out of Mulu via Miri.

Day 1 Brunei - Miri - Mulu

Upon arriving at Mulu National Park, you will be transferred to your hotel. Enjoy the tranquility and pristine environment of Mulu. The notable towering white cliffs and jungle are homes to not less than 20,000 species of flora and fauna (mostly insects), over 3,500 plant species, 8,000 types of fungi and at least 170 kinds of orchids. You may be lucky enough to stumble upon the world's largest flower, the dog-eared Rafflesia in bloom. *Overnight (Meal: Dinner)*

Day 2 Wind / Clearwater / Deer / Lang Cave

After breakfast, transfer by longboat to Wind Cave, named after the cool breeze that fans from its entrance and famed for its unusual calcite formations.

The "King's Room" unravels a treasure trove of impressive glistening stalactites and stalagmites. At the Clearwater Cave, you will explore some parts of the longest cave passage in South East Asia and the tenth longest in the world at 107 kilometers. The water is crystal clear due to the process of filtering and purifying by the rushing river water which passes through hundreds of meters of limestone. Out by the river is a perfect spot for swimming and relaxing, a wonderful antidote to the tropical heat. Enjoy a picnic lunch beside the cool, clear river.

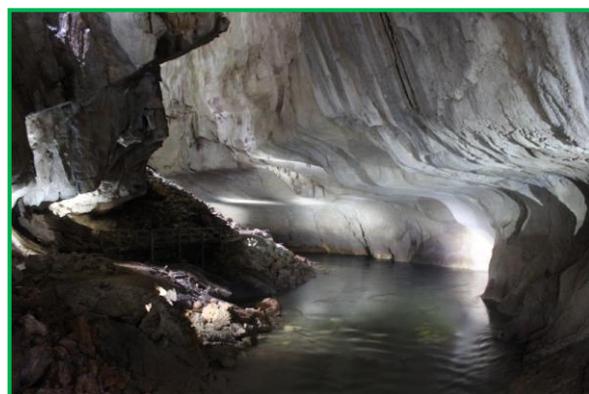

Take the board walk through peat swamp forest to visit the Deer Cave, famed for having the world's largest cave passage. Due to its immense size, Deer Cave is like a little world of its own, with hills and valleys, plains and forests (near the huge entrance) You cannot but be mesmerized by this "Garden of Eden," complete with lush trees and a waterfall.

Lang Cave though smaller, it is no less impressive. Be dazzled by walls of uniquely decorated and spectacular stalagmites, stalactites and other beautiful cave formations. The bats deposit a huge amount of guano in the cave providing a unique and important ecosystem, to millions of insects and their predators. In the evening, behold the spectacular sights of millions of snake-like formation of flying bats leaving from their cave in search of food for the day. *Overnight. (Meal: Breakfast, Lunch, Dinner)*

Day 3 Mulu - Brunei

After breakfast, transfer to airport for your onward flight back to Miri then transfer back to Brunei. *(Meal: Breakfast)*

**Package does not include airfares

**Sighting of wildlife is not guaranteed
